

## Rain forests

Tall trees, short shrubs  
All in a rainforest  
There are so many types  
And fruits which are ripe  
All in a rainforest.

But its not as easy as you think  
Cause in quick sand you will sink  
And the moment you don't look at the ground  
You wont be safe and sound  
Oh no not in a rain forest.

There are explorers who went  
But never came back  
There are explorers who went  
But carried a sack  
And there are explorers who went  
Covered in stick tack!

There are tribes there who are very brave  
just how do they keep so safe?  
When you run out of food  
Its awfully bad  
Because you will have frog's for breakfast  
And toads for a snack  
And if an animal sees you it's a mighty big case  
You'll really have to run a race

So do you want to go to a rainforest now  
With nice cats saying meow  
You will have lots of fun  
In the sun only in a rain forest.
